Filing Statement no. 1866  
Filed May 8th, 1973

## COSEKA RESOURCES LIMITED

Full corporate name of Company

Formed by Amalgamation under the British Columbia  
Companies Act June 15, 1972

Particulars of incorporation (e.g., Incorporated under Part IV of the Corporations Act, 1953  
(Ontario) by Letters Patent dated May 1st, 1957).

## FILING STATEMENT

(To be filed with respect to any material change in a company's affairs, including among other things, an underwriting and option agreement, an issue of shares for property and a proposed re-organization.)

1. Brief statement of the material change in the affairs of the company in respect of which this statement is filed.	A. Transfer of the Company's mineral properties to a wholly owned subsidiary and amalgamation of that subsidiary with Wharf Resources Ltd., a public company. See Schedule "A" on pages 3 to 6.  B. Acquisition of Alberta petroleum and natural gas lease interests from Chapparal Mines Ltd. (N.P.L.) of Calgary, Alberta for \$170,000.
2. Head office address and any other office address.	Head Office: 2190-1055 West Hastings Street, Vancouver 1, B. C.; Registered Office: 801-900 West Hastings Street, Vancouver 1, B. C.
3. Names, addresses and chief occupations for the past five years of present or proposed officers and directors.	See Schedule "B" on page 7.
4. Share capitalization showing authorized and issued and outstanding capital.	Authorized: 7,000,000 common shares without nominal or par value and 1,200,000 6% exchangeable shares without nominal or par value. Issued: 5,083,958 common shares: 656,559 6% exchangeable shares The 6% exchangeable shares are entitled to a 6% non-cumulative preferential dividend, priority of return of capital, have the right to be redeemed on March 15, 1977 subject to prior redemption or purchase or cancellation by the Company, are non-voting, and each exchangeable share may be exchanged for 1 common share of the Company at the option of the holder.
5. Particulars in respect of any bonds, debentures, notes, mortgages, charges, liens or hypothecations outstanding.	Coseka has borrowed \$2,000,000 from its bankers. This loan is secured by an assignment of Coseka's interest in and the oil and gas production from the Company's Strachan and Tilley Bantry properties under Section 82 of the Bank Act.  Coseka also has an \$800,000 line of credit from its bankers of which to date \$175,000 has been utilized. This line of credit is secured by an assignment of Coseka's interest in and the oil and gas production from the Company's Coleman properties.

6. Details of any treasury shares or other securities now the subject of any underwriting, sale or option agreement or of any proposed underwriting, sale or option agreement.

The following options to purchase common shares of Coseka are held by the following employees of Coseka:

Date of Grant	Optionee	No. of Shares and Price	Terms
Sept. 12 1972	Lauch F. Farris 3937 Marguerite St. Vancouver, B.C.	10,000 common \$2.29 per share	5 equal annual instalments, non-cumulative, terminating upon employee ceasing employment
"	Olga Zaholuk 103-145 East 20th St. North Vancouver, B.C.	5,000 common \$2.29 per share	"
March 2, 1973	Marie McLeod 602 One Calgary Place 330 5th Ave. S.W. Calgary, Alberta	7,500 common \$2.80	5 equal annual instalments, cumulative, terminating upon employee ceasing employment
"	Helen L. Pratt 2190-1055 West Hastings Street Vancouver, B.C.	5,000 common \$2.80 per share	"
March 2, 1973	Olga Zaholuk	2,500 common \$2.80 per share	5 equal annual instalments, cumulative, terminating upon employee ceasing employment
"	Peter R. Kutney 2190-1055 West Hastings Street Vancouver, B.C.	50,000 common \$2.80 per share	"
"	John E. Labrecque 602 One Calgary Place 330 5th Ave. S.W. Calgary, Alberta	25,000 common \$2.80 per share	"

The first two options described were granted prior to the adoption by Coseka of an employee stock option plan. The balance of the options were granted pursuant to a plan adopted September 12, 1972 and subsequently approved by regulatory authorities having jurisdiction.

Coseka has agreed to employ a senior adviser for the calendar year 1973 at a salary of \$26,000 to be paid by the issuance of 8,000 common shares of Coseka. These shares have not yet been issued.

Pursuant to agreement of January 26, 1973 Coseka has agreed to issue 5,000 common shares to Telstar Resources Ltd. of Calgary, Alberta, in consideration for petroleum and natural gas lease interests. These shares have not yet been issued.

7. Names and addresses of persons having any interest, direct or indirect in underwritten or optioned shares or other securities or assignments, present or proposed, and, if any assignment is contemplated, particulars thereof.

See Item 6 above.

8. Any payments in cash or securities of the company made or to be made to a promoter or finder in connection with a proposed underwriting or property acquisition.

Not applicable

9. Brief statement of company's future development plans, including proposed expenditure of proceeds of sale of treasury shares, if any.

The Company proposes in the future to concentrate its efforts in the oil and gas field and one of the reasons for the transaction described under Item 1 is to allow the Company to implement this intention.

10. Brief statement of company's chief development work during past year.

In the period June 15, 1972 (the date of the amalgamation of Coseka and The Cariboo Gold Quartz Mining Company Limited (N.P.L.)) to date Coseka has been active in oil and gas exploration and development and to a lesser extent mining exploration. In that period Coseka has expended approximately \$2,448,000 in the acquisition and development of oil and gas properties, interests and facilities and approximately \$37,700 in the exploration of mineral properties.

11. Names and addresses of vendors of any property or other assets intended to be purchased by the company showing the consideration to be paid.

Petroleum and natural gas lease interests described in Item 1 are being acquired from Chapparal Mines Ltd. (N.P.L.) of 1270 Acquitaine Tower, Calgary, Alberta.

## Schedule 'A'

By agreement dated February 26, 1973 between Coseka Resources Limited ("Coseka") and French Exploration Limited ("French"), a wholly owned subsidiary of Coseka, Coseka transferred to French all of its mineral property interests (with the exception of one dormant property owned by another Coseka subsidiary, Silgold Mines Ltd.), to French in consideration for 9,998 shares in the capital of French. The property interests transferred to French are described in detail below under the heading "French Properties."

By an agreement ("Amalgamation Agreement") dated March 5, 1973 between Wharf Resources Ltd. ("Wharf"), a British Columbia Company listed on the Vancouver Stock Exchange, and French, Wharf and French agreed, subject to the fulfilment of certain conditions outlined in the Amalgamation Agreement, to amalgamate and continue as one company under the provisions of Section 178 of the B. C. Companies Act.

Prior to execution of the Amalgamation Agreement, Coseka and Wharf retained Cannon-Hicks Associates Ltd., an independent geological consulting firm, to review the mineral properties of Coseka to be placed into French, and Wharf's assets, and to advise if the proposed ratio in relation to the assets of both companies was appropriate. The following is a brief description of the properties of both French and Wharf and excerpts in respect of each property from the Cannon-Hicks Report. The Report itself has been filed with the Vancouver Stock Exchange.

### FRENCH PROPERTIES

<u>Property</u>	<u>Location</u>	<u>Number of Claims</u>	<u>French's Interest</u>	<u>Royalties</u>
Landusky Gold-Silver Property	Little Rocky Mountain, north-eastern Montana, U. S. A.	23 patented and 6 unpatented mineral claims; approximately 425 acres.	Under option to Coseka.	

Cannon-Hicks state, inter alia, that the deposit may have total reserves of 200,000,000 tons which, by selective mining and pre-concentrator upgrading by screening, could produce 20 to 30,000,000 tons of mill feed grading 0.052 ounces per ton gold and 3.10 ounces per ton silver. Cannon-Hicks also caution, however, that a considerable amount of additional exploratory work is required to confirm these estimates.

By agreement dated March 1, 1973 but not executed until March 30, 1973 Teck Mining Group Limited has committed to expend \$100,000 on exploration of this property by March 1, 1974 and may, by expending an aggregate of \$400,000 in exploration and option payments in respect of the property by March 31, 1977 earn a maximum of a 65% interest and a minimum of a 60% interest in the property. If Teck Mining Group Limited earns an interest in the property Wharf may either retain the balance of the interest in the property as a working interest or at Wharf's election, convert that working interest into a 25% carried interest.

Wells-Barkerville Property	Wells-Barkerville Area, Cariboo Mining Division, B. C.	99 Crown granted mineral claims; approximately 5,000 acres.	100%
Mosquito Creek Property	Wells-Barkerville Area, Cariboo Mining Division, B. C.	29 contiguous Crown granted mineral claims; approximately 1,500 acres.	22% interest*

\*Represented by ownership of shares in Mosquito Creek Gold Mining Company Ltd.

These two properties cover the former producing mines of The Cariboo Gold Quartz Mining Company Limited (N.P.L.) and Island Mountain Mines Ltd. Cannon-Hicks state that suspension of operations was brought about through rising costs in the face of a fixed gold price, and further state that with the increase in the price of gold there is a good probability that profitable operations might be resumed.

<u>Property</u>	<u>Location</u>	<u>Number of Claims</u>	<u>French's Interest</u>	<u>Royalties</u>
Run Property	North-western British Columbia, Liard Mining Division, B. C.	68 mineral claims; approximately 4,400 acres.	21.25% carried interest	2% net proceeds

In the opinion of Cannon-Hicks a recoverable grade of at least 0.85% copper or the equivalent in combined metals is required before a profit can be visualized from an open pit operation from the Run property under present metal prices and operating costs in that area. Such being the case, and assuming that the ore mineralization has a magnetic signature, in the opinion of Cannon-Hicks only three of the recorded magnetic anomalies could be indicators of mineralization with open pit dimensions and only two are favourably located for easy extraction.

Ram River Coal	Ram River Alberta, foothills belt.	12 provincial Crown leases; approximately 11,800 acres.	100%	Crown royalties
----------------	------------------------------------	---	------	-----------------

Cannon-Hicks state that geological and geophysical surveys, followed by limited drilling, have disclosed the existence of coal of good metallurgical quality on one of the leases. They further state that additional work is required for a full evaluation.

Ruttan Lake Property	Ruttan Lake Area, The Pas Mining District, Manitoba.	20 claim blocks; approximately 18,600 acres.	28 1/2% (reducible to 13 1/2%)
----------------------	--	--	--------------------------------

Exploration of the property is managed by Phelps Dodge Corporation of Canada, Limited. Cannon-Hicks report that the geophysical work carried out by Phelps Dodge is reported to have located several anomalous areas apparently indicating bedrock conductors. Phelps Dodge has advised that a diamond drilling program of a minimum of three holes is to be carried out in 1973.

<u>Property</u>	<u>Location</u>	<u>Number of Claims</u>	<u>French's Interest</u>	<u>Royalties</u>
Middle Fork Property	North bend North Cascades Region, Washington, U. S. A.	15 patented claims, 228 unpatented claims, 15 fractional claims; approximately 5,000 acres.	5%	

Cannon-Hicks state that this is a potential porphyry-type, underground copper mine and that extensive surface and underground exploratory work has indicated a number of mineralized zones.

White Rocks Property	Lambly Lake Vernon Mining Division, B. C.	55 mineral claims; approximately 2,850 acres.	50%
----------------------	--	--	-----

Cannon-Hicks state that at the present time this property cannot be considered an important asset.

Snow Claim Group Property	Prairie Creek Area, Nahanni District, Northwest Territories.	28 mineral claims; approximately 1,400 acres.	65%
---------------------------	---	--	-----

Cannon-Hicks state that at the present time this property cannot be considered an important asset.

#### WHARF PROPERTIES

<u>Property</u>	<u>Location</u>	<u>Number of Claims</u>	<u>Wharf's Interest</u>	<u>Royalties</u>
Strike-Lorna Group Property	Nicola Mining Division, B. C.	21 mineral claims; approximately 1,100 acres.	50%	

Cannon-Hicks state that work to date has located areas of low grade copper mineralization and that the property should be retained and consideration given to an additional work program at some future date.

Reed Lake Property	West of McLeod Lake, B. C.	60 mineral claims; approximately 3,000 acres.	100%
--------------------	----------------------------------	--	------

Cannon-Hicks state that no further work is justified on this property.

<u>Property</u>	<u>Location</u>	<u>Number of Claims</u>	<u>Wharf's Interest</u>	<u>Royalties</u>
Earl Group Property	East of Dease Lake, B. C.	8 mineral claims and 3 fractional mineral claims; approximately 450 acres.	100%	

Cannon-Hicks state that no additional work appears justified.

Lucky Ship Property	South-west of Houston, B. C.	Located mineral claims.	5% net profits interest.
---------------------	------------------------------	-------------------------	--------------------------

This property is owned by Amax Exploration Ltd. Cannon-Hicks state that under present economic conditions, exploitation of the property is not feasible but that it may become an asset of value at some future date.

In its Report of January 19, 1973, in summary and in conclusion, Cannon-Hicks states that:

"It is apparent that the holdings of Wharf Resources Ltd. are not significant at this time. No exploration work is currently under way or planned on any of them and past results have not been encouraging. On the other hand several of (French) holdings, in particular the Landusky Gold-Silver Property, are of considerable promise. Exploratory programs are currently under way or are being planned on others. Offsetting to some extent the imbalance in property holdings of the two companies is the fact that Wharf will contribute approximately \$200,000 in cash to the continuing entity. Under these circumstances and after a thorough study of all aspects of the proposed Agreement, it is our opinion that it is fair and equitable to both parties."

The Amalgamated Company will be a public company bearing the name Wharf Resources Ltd. and will be authorized to issue 7,500,000 Common Shares without nominal or par value with a maximum price or consideration of \$1.50 each.

The number of Directors of the Amalgamated Company will be eight, and their names, addresses and occupations are set forth in paragraph 5 of the Amalgamation Agreement.

Upon a Certificate of Amalgamation being issued, the outstanding shares of Wharf and French will be exchanged for shares of the Amalgamated Company on the following basis:

- (a) One Share of Wharf for One Common Share of the Amalgamated Company;
- (b) One Common Share of French for 410 Common Shares of the Amalgamated Company.

No fractional Common Shares of the Amalgamated Company will be issued. Wharf presently has 1,001,251 issued shares and French presently has 10,000 issued common shares. Upon the amalgamation becoming effective, the shareholders of Wharf will beneficially own 1,001,251 shares of the Amalgamated Company and Coseka will beneficially own 4,100,000 shares, being approximately 80% of the issued shares of the Amalgamated Company.

It is intended that application will be made for listing of the shares of the Amalgamated Company on the Vancouver Stock Exchange concurrently with the amalgamation becoming effective.

## Schedule 'B'

The following are the present directors and officers of Coseka:

<u>Name and Address</u>	<u>Position with the Company</u>	<u>Chief Occupation for Past 5 Years</u>
John S. Davidson 4727 Drummond Drive Vancouver, B. C.	Chairman of the Board and a Director	Insurance Executive; Director, Reed Shaw Osler Limited
Peter R. Kutney 1602-2055 Pendrell St. Vancouver, B. C.	President and Director	President of the Company; Prior thereto petroleum and natural gas consultant and prior thereto Vice-President of Westcoast Transmission Co. Ltd.
J. Royden Morris 1001-1985 Bellevue Ave. West Vancouver, B. C.	Vice-President and Director	Mining Executive
Robert A. Boulware 680 One Calgary Place 330 5th Avenue S.W. Calgary, Alberta	Vice-President and Director	Petroleum Geophysicist
Roland E. Legg 6642 Adera Street Vancouver, B. C.	Director	Consulting Engineer
William H. McLallen #110-2075 Nelson Street Vancouver, B. C.	Director	President, Capilano Timber Co. Ltd.
Charles E. Michener 4302-401 Bay Street Toronto, Ontario	Director	Consulting Geologist
David A. Sloan #26-425 Howe Street Vancouver, B. C.	Director	Mining Consultant
Paul Bell 830 10th Avenue West Calgary, Alberta	Director	Executive
John Ernest Labrecque 19 Cherovan Drive Calgary, Alberta	Vice-President	Employee of the Company since March, 1972; Vice-President since December, 1972; prior thereto Chief Geologist, Foothills Division, Imperial Oil Enterprises Ltd.
Lauch F. Farris 3937 Marguerite St. Vancouver, B. C.	Secretary	Executive
Olga Zaholuk 103-145 East 20th St. North Vancouver, B. C.	Assistant Secretary	Secretary

Note: Mr. Roy E. Ricks, formerly a director of Coseka, did not stand for re-election at the annual general meeting of Coseka in December, 1972.

JANUARY 31, 1973

(Subject to audit)

1. AMALGAMATION:

Coseka Resources Limited (Coseka) and Cariboo Gold Quartz Mining Company Limited (N.P.L.) (Cariboo) amalgamated under the continuing name of Coseka Resources Limited on June 15, 1972 pursuant to Section 178 of the Companies Act, British Columbia.

Under the terms of the amalgamation, shares of Coseka Resources Limited (the amalgamated company) have been issued on the following basis:

- One common share of the amalgamated company for each common share outstanding of Coseka
- One common share of the amalgamated company for each 1.8 common shares outstanding of Cariboo
- One 6% exchangeable share of the amalgamated company for each 6% exchangeable share outstanding of Coseka

The issued share capital as at the date of the amalgamation was as follows:

	<u>Original Shares</u>	<u>Amalgamated Shares</u>	<u>Deemed Consideration</u>
<u>6% Exchangeable Shares:</u>

**COSEKA RESOURCES LIMITED**  
**AND SUBSIDIARY COMPANIES**

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

**JANUARY 31, 1973**

(Subject to audit)

**2. PRINCIPLES OF CONSOLIDATION:**

**A. Silgold Mines Inc.:**

The consolidated financial statements include the accounts of Silgold Mines Inc., (an Idaho corporation and a wholly-owned subsidiary) since the date of acquisition, December 3, 1969. The excess of the consideration paid for the shares over the net book value of the assets at the date of acquisition was \$54,322. This excess has been allocated to mineral properties as follows:

Elkhorn Group claims .....	\$36,215
Tinta Group claims (abandoned and written off to deficit) .....	<u>18,107</u>
	<u>\$54,322</u>

The accounts of Silgold Mines Inc. have been converted to Canadian Funds on the following basis:

- Current assets and current liabilities at par
- Other assets at rates of exchange at the dates of the relevant transactions

**B. Safari Oil and Gas Limited:**

The company has an 80% interest in Safari Oil and Gas Limited (incorporated in the Province of Alberta). The operations of the subsidiary have been included in the consolidated statements from the date of incorporation, November 1, 1971.

**C. Non-consolidated subsidiaries:**

The company is carrying its investment in three subsidiaries, The Wells Townsite Company Limited, Gold Quartz Hospital Limited and French Mines Ltd. (N.P.L.) at a nominal value of \$1 each. The balance of the original investment was charged to deficit by a predecessor company. These companies have not been included in the consolidation as they are inactive and had no profits or losses during the period.

**3. OTHER INVESTMENTS:**

The company has the following investments for which there is no quoted value at January 31, 1973:

**A. The Mosquito Creek Gold Mining Co. Ltd. (N.P.L.):**

- 200,000 shares acquired in exchange for ten Crown granted mineral claims, recorded at a nominal value of \$1. Subsequent to January 31, 1973, the company exchanged its 5% working interest (related costs as at January 31, 1973 - \$29,270) in certain Mosquito Creek claims for 50,000 additional shares.

COSEKA RESOURCES LIMITED  
AND SUBSIDIARY COMPANIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

JANUARY 31, 1973

(Subject to audit)

**3. OTHER INVESTMENTS (Continued):**

**B. Noordzee Exploratie Maatschappij N.V.:**

The company has a 10% interest in two oil and natural gas exploration licences in the Dutch Sector of the North Sea. 25% of the company's interest is held through its 10% interest in Noordzee Exploratie Maatschappij N.V. acquired for a cost of \$3,190. It is the intention to offer all the shares of Noordzee Exploratie Maatschappij N.V. to the Dutch public.

**C. 127,500 common shares of Ultrabasic Minerals Ltd. (N.P.L.) ..... \$75,770**  
7,500 shares acquired for cash at 10¢ per share  
120,000 shares acquired in exchange for four placer  
mining leases at an ascribed value of  
\$75,020

**D. 5,000 shares of Shepherd Enterprises Ltd. acquired for  
\$5,000 cash**

Subsequent to January 31, 1973, this company was liquidated and the investment has been written down to the estimated proceeds of \$3,665.

**4. PETROLEUM AND NATURAL GAS PROPERTIES:**

**A. Accounting policy:**

On amalgamation the company adopted the full cost method of accounting for petroleum and natural gas properties. Under this method all costs, including a portion of administrative expenses, relating to the exploration for and development of oil and natural gas reserves are capitalized. Proceeds received from disposal of properties are credited against such accumulated costs. Depletion of such net costs is provided for by the unit of production method based on the company's total estimated recoverable reserves of all properties.

Prior to amalgamation the costs of the one natural gas property in production were being depleted by the unit of production method based on the total estimated recoverable reserves of that property.

**B. Commitments:**

At January 31, 1973, the company was committed to expend approximately \$1,140,000 on exploration and development of which \$ has subsequently been advanced.

**5. MINERAL PROPERTIES (See Note 12):**

**A. Accounting policy:**

The company follows the practice of capitalizing in its accounts all costs, including a portion of administrative expenses, relating to the exploration for and development of mineral properties. If a property is abandoned the aggregate of the costs related to it are charged to deficit at that time.

The amount shown on the balance sheet at January 31, 1973 for mineral properties is made up of the following:

Mineral claims owned and held under option .....	\$253,171
Coal leases .....	210,000
Deferred exploration and development costs - Schedule 2 .	334,890
	<u>\$798,061</u>

These amounts represent costs to date less amounts written off including values ascribed for shares issued or received in exchange therefor.

**B. Option - Landusky property:**

At January 31, 1973 the company had an option to purchase certain mineral claims in the State of Montana for \$400,000 U.S. of which \$70,000 has been paid. The balance is payable as follows:

- Option payment August 16, 1973 - \$10,000 plus 10% of development costs expended on the property in excess of \$100,000.
- Balance due August 16, 1974.
- Subsequent to January 31, 1973 the company's interests in this property were sold to French Exploration Limited (Note 12A and 12C).

**COSEKA RESOURCES LIMITED**  
**AND SUBSIDIARY COMPANIES**

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

**JANUARY 31, 1973**

(Subject to audit)

**6. PROPERTY, PLANT AND EQUIPMENT:**

The major categories of property, plant and equipment (at cost except as noted below) and related accumulated depreciation and amortization at January 31, 1973 were as follows:

	<u>Property, Plant and Equipment</u>	<u>Accumulated Depreciation and Amortization</u>
- Petroleum and natural gas production facilities .....	\$545,448	\$41,047
- Millsite, building and equipment - Elkhorn property, Montana .....	10,446	213
- Idle buildings and equipment - Wells-Barkerville property (at estimated net realizable value) .....	18,825	-
- Automotive equipment .....	4,595	2,694
- Office furniture and equipment .....	20,877	2,787
- Leasehold improvements .....	<u>5,495</u>	<u>915</u>
	<u>\$605,686</u>	<u>\$47,656</u>

Production facilities are being depreciated by the unit of production method on an individual property basis based on the estimated recoverable reserves of each property.

Leasehold improvements are being amortized over the terms of the leases and the remaining assets are being depreciated by the declining balance method at rates varying from 10% to 30%.

**7. LONG-TERM DEBT:**

The long-term debt of the company consists of a \$2,000,000 demand loan payable to a Canadian chartered bank and secured by a general assignment of the company's accounts receivable and an assignment of the company's interest in the Strachen and Tilley-Bantry properties. The agreed terms of repayment call for monthly interest payments at 3/4% above the bank's prime rate (prime as at January 31, 1973 - 6%) and, commencing November 1973, sixty monthly principal payments. These terms have been reflected in the financial statements at January 31, 1973 as follows:

Bank loan .....	\$2,000,000
Less current portion due within one year .....	<u>100,000</u>
Long-term debt .....	<u>\$1,900,000</u>

The company has an additional line of credit with the same bank of \$800,000 (of which \$ had been drawn as at , 1973) which is repayable on the same terms.

**8. EXTRAORDINARY ITEM - INCOME TAXES:**

Income taxes otherwise payable have been eliminated (except for \$410 payable by a subsidiary) by claiming depreciation for tax purposes in excess of the amount recorded in the accounts.

Up to the date of amalgamation the predecessor companies had recorded depreciation in excess of that claimed for income tax purposes by approximately \$2,400,000, but the future potential tax reductions related thereto of approximately \$1,150,000 have not been recognized in the accounts. The company has during the current period utilized approximately \$105,000 of this excess depreciation and will have the benefit of claiming the remaining excess against future taxable income when earned.

Development expenditures charged against income in the predecessor companies but not claimed for income tax purposes may only be deducted against future taxable income in certain restricted cases. No development expenditures related to properties currently held by the company have been claimed for income tax purposes as at January 31, 1973.

COSEKA RESOURCES LIMITED  
AND SUBSIDIARY COMPANIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

JANUARY 31, 1973

(Subject to audit)

9. SHARE CAPITAL:

A. Issued shares:

During the period 220,782 6% exchangeable shares were exchanged for common shares and 15,000 common shares were issued from the treasury pursuant to the agreement referred to in (B) below. Issued share capital as at January 31, 1973 was as follows:

	<u>Shares</u>	<u>Amount</u>
<u>6% Exchangeable Shares:</u>		
Balance June 15, 1972 .....	983,940	\$1,475,910
Exchanged .....	(220,782)	(331,173)
Balance January 31, 1973 .....	<u>763,158</u>	<u>\$1,144,737</u>
<u>Common Shares:</u>		
Balance June 15, 1972 .....	4,756,577	\$1,684,210
Exchanged .....	220,782	331,173
Issued .....	15,000	22,500
Reduction on conversion of shares of predecessor companies .....	(5)	-
Balance January 31, 1973 .....	<u>4,992,354</u>	<u>\$2,037,883</u>

The 6% exchangeable shares provide for a 6% non-cumulative preferential dividend, priority of return of capital, are redeemable, at the option of the company for the paid up amount thereon plus a portion of the retained earnings as determined by the Articles of the company and may be exchanged, at the shareholders option, for a like number of common shares.

B. Royalty agreement:

Pursuant to an amended royalty agreement dated May 30, 1972, 15,000 common shares were issued during the period for an ascribed consideration of \$22,500 (based on the market price May 30, 1972) which amount has been included in the costs incurred on the Run property.

C. Employment contract:

On December 13, 1972, the company agreed to employ a senior advisor for the calendar year 1973 at a salary of \$26,000 which is to be paid by the issue of 8,000 common shares of the company, 4,000 on January 31, 1973 and 4,000 on June 30, 1973. This agreement is subject to the approval of the Vancouver and Toronto Stock Exchanges and no shares had been issued at January 31, 1973.

D. Agreement payable:

The company has acquired an interest in certain petroleum and natural gas properties in the Atmore Area, Alberta for \$20,000, which amount is included in accounts payable at January 31, 1973. Subsequently this debt was satisfied by the allotment to the vendor of 5,000 fully paid common shares of the company.

10. STOCK OPTIONS:

On September 12, 1972 the company granted five year cumulative stock options on 15,000 shares at a price of \$2.29 (market price September 12, 1972 - \$2.69) to two officers. The options may be exercised 20% at the date of granting the option and 20% on each of the following four anniversary dates with the cumulative rights to acquire in subsequent years shares not acquired during previous years. The options expire five years after the date of grant and are subject to restrictions relating to the optionee's employment with the company. No options had been exercised at January 31, 1973.

On March 2, 1973, further options on 90,000 shares at a price of \$2.80 (market price March 2, 1973 - \$3.20) were granted on the same terms as above to two officers and three employees of the company.

**COSEKA RESOURCES LIMITED  
AND SUBSIDIARY COMPANIES**

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

**JANUARY 31, 1973**

**(Subject to audit)**

**11. COMMITMENTS:**

The company has entered into five year management contracts expiring in 1977 with the President and one Vice-President at salaries of \$30,000 and \$17,000 per annum respectively. The President's contract must be honoured even in the case of incapacity or death.

**12. SUBSEQUENT EVENTS:**

**A. French Exploration Limited:**

On February 19, 1973, French Exploration Limited (French) was incorporated as a wholly-owned subsidiary, and on February 28, 1973, the company sold French the following assets for \$1,000,000:

- (i) All the company's mineral properties with the exception of the Elkhorn, Montana property owned by Silgold Mines Inc. (costs included on the consolidated balance sheet related to the Elkhorn property amount to \$160,171).
- (ii) The 250,000 shares in The Mosquito Creek Gold Mining Co. Ltd. (N.P.L.) (Note 3A), and
- (iii) The idle buildings and equipment situated on the Wells-Barkerville property (Note 6).

Consideration for the sale was \$20,000 cash and 9,998 fully paid and non-assessable common shares of French.

**B. Wharf Resources Ltd.:**

On March 5, 1973, French entered into an agreement to amalgamate with Wharf Resources Ltd. (a public company). Under the terms of the agreement, Coseka Resources Limited will be allotted 4,100,000 (80.4%) of the issued shares of the amalgamated company.

**C. Option agreement:**

On March 1, 1973, French entered into an agreement with Teck Mining Group Limited (Teck), whereby French granted an option to Teck to acquire an undivided interest in the option agreement referred to in Note 5(B). Under the terms of the agreement Teck will be required to expend \$400,000 (\$100,000 by March 15, 1974) on exploration and development of the property, and depending upon the speed with which the monies are expended will earn an undivided interest of 60% to 65% in the properties. Teck will also be responsible for making the required option payments referred to in Note 5(B); however, if Teck decides to put the property in production, French will be responsible for its pro-rata share of such option payments.

The agreement is subject to confirmation by Teck's counsel of the titles to the property.

**D. South Ricinus property:**

On March 16, 1973, Albany Oil & Gas Ltd. exercised its right to convert its 1.05% royalty interest in the property to a 5% working interest. As a result the company has received \$74,408.

Notes to Financial Statements

February 28, 1973

Note 1 -

At the Annual General Meeting of the shareholders held September 30, 1972 the following special Resolutions were passed.

1. The name of the Company was changed from Plateau Metals & Industries Ltd. to Wharf Resources Ltd.
2. The authorized share capital was consolidated from 3,500,000 shares of no par value with a maximum issue price of \$1, of which 2,705,005 were issued, to 875,000 shares of which 676,251 shares were issued.
3. The authorized capital was increased from 875,000 shares to 3,500,000 shares of no par value with a maximum issue price of \$1 each.

Note 2 -

Investments	Number of Shares	Cost	Market Value
Axel Mines Ltd.	400,000	\$ 7,500	\$ NIL
Newport Ventures Limited	75,000	<u>7,500</u>	<u>NIL</u>
		<u>\$15,000</u>	<u>\$ NIL</u>

Note 3 -

Share capital	Number of Shares	Amount
Issued for cash	773,751	\$526,503
Issued for mining properties	227,500	455,000
	1,001,251	<u>\$981,503</u>

Under an Underwriting Agreement dated April 12, 1972, the Company sold to Donaldson Securities Ltd., prior to the consolidation referred to in Note 1, 400,000 shares for \$130,000 net to the Company. An option for an additional 200,000 shares of the Company was not exercised by Donaldson Securities Ltd.

The Company, under a second Underwriting Agreement with Donaldson Securities Ltd. dated December 10, 1972, sold an additional 325,000 shares for \$138,000 net to the Company.

Of the 227,500 shares issued for mining properties, 83,000 shares are held in escrow by Guaranty Trust Company of Canada and may not be released without the consent of the British Columbia Securities Commission and the Vancouver Stock Exchange.

NOTE TO THE PRO-FORMA BALANCE SHEET

FEBRUARY 28, 1973

(Prepared without audit)

The pro-forma balance sheet gives effect to an amalgamation agreement dated March 5, 1973 between Wharf Resources Ltd. (Wharf) and French Explorations Limited. (French) as if the agreement had taken effect as of February 28, 1973. The amalgamation is subject to the approval of the appropriate regulatory bodies and the shareholders of each company. The new company, with the continuing name of Wharf Resources Ltd., will exchange 1 similar share for each outstanding share of Wharf and 410 shares for each outstanding share of French. The pro-forma balance sheet reflects the assets, liabilities and shareholders' equities of the two companies at their book values prior to amalgamation. The notes to the financial statements at February 28, 1973 of both companies should be read in conjunction with this pro-forma balance sheet.

Wharf Resources Ltd.  
Vancouver, B. C.

Dear Sirs:

We have prepared the accompanying pro-forma balance sheet as at February 28, 1973 from the unaudited balance sheets of French Explorations Limited and Wharf Resources Ltd. and from information given to us.

In accordance with the terms of our engagement, we have performed services as accountants only. We have not performed an audit and consequently do not express any opinion on this pro-forma balance sheet.

Yours very truly,

*Deloitte, Haskins & Sells*

March 6, 1973

12. Names and addresses of persons who have received or will receive a greater than 5% interest in the shares or other consideration to be received by the vendor.
